NATIONALIST WARNING TO SHIPPING

Generalissimo take over today

Taipeh, February 28. Generalissimo Chiang Kai-shek will resume the Presidency of Nationalist China at 9 a.m. local time tomorrow. A spokesman of the Generalissimo's Headquarters told Router that a simple ceremony will be held at which the Generalissimo will make a statement giving the reasons for a resumption of the post which he relinquished last year in favour of Vice-President Li Tsung-jen. According to the spokesman, his main reasons will

1.-Acting President Li Tsung-jen, owing to his long sick leave in the United States, will be unable to be present in Talwan to lead the Nationalists when an invasion was imminent, "following the conclusion of the Sino-Russian Treaty;" and

2.—The people of the country wish that he return to the Presidency.

Official quarters have received no comment from Acting President Li Tsung-jen about the Generalissimo's plans to resume the Presidency. The Acting President, however, has wired friends indicating his willingness that Generalissimo Chiang Kai-shek should re-occupy the post. Some Western observers here believe that the Generalissimo's return will greatly strengthen morale among

Vessels trading U.S. SHIPS STRAFED

Taipeh, February 28.

In the wake of new attacks on two American merchantmen Nationalist China warned today that all ships trading with the Chinese Reds are subject to air assault.

The Pioneer Dale of the United States Lines and the Flying Clipper of the Isbrandtsen Line were bombed and strafed by unidentified planes off Tsingtao. The bombs missed but both ships were hit by machinegun fire. One sailor was injured.

Chinese Nationalist Air Force Headquarters did not say its planes attacked the American ships, but admitted they raided the Tsingtao area. In response to foreign reports that the two ships had been fired on, however, Headquarters issued this statement:

"The Nationalists are determined to carry out the government's port closure policy and therefore any and every ship which steams into a closed area is liable to air attack."

The Nationalists declared blockade—they call it "port closure" to avoid giving the Reds beiligerent status-of part of the China coast last June. It was expanded as the Communist armies swept over the country. Now it covers all mainland seaports.

Meanwhile, the Defence Minia-'try reported a big massacre of pro-Nationalists in the Shanghal are, but there was no way of confirming whether it was founded on fact. This is the story:

The Defence Ministry claimed it had received this story from Nationalist intelligence agents. The Ministry also repeated part allegations; that the Communist

leader. Mao Tre-tung, had promised to provide the Soviet Union with 5,000,000 Chinese labourers. It said recruiting for this force was already under way in several areas, including Shanghal and Nanking.

The Ministry had only one item of war news from the mainland. Nationalist guerilias, it said, recently emptured the small town of Kuangtee in the scaboard vince of Fukien, but the Reds sent reinforcements and retook it. Associated Press.

Red success in China has raised morale of Malayan terrorists

The recent turn of events in Asia, particularly in China, has raised the morale of the terrorists to an unprecedented height, adding increasing difficulties to the Malayan campaign, Mr. Malcolm MacDonald, Commissioner-General for South East Asia, told the Press after his arrival in the Colony yesterday.

Nevertheless, Mr. MacDonald added, this had only spurred the government and the Malayan people to a more determined effort in the fight, and the recent mobilisation of the civilian population is yet another strong challenge to the bandits.

Secret pact reported

A secret four-point military pact between United States representatives and the Nationalist Government on Talwan has been drafted for discussion and eventual approval, according to the independent vernacular "New Life Evening Post."

The pact, added the newspaper, to be enforced in the event of an international war breaking out in Asia, has been drafted in consultation with General Douglas Mac-Arthur, SCAP, over a period of

more than a month. Quoting an unimpeachable source-not associated; with the Kuomintang but in a qualified position to possess the information —the newspaper listed the following four main points in the secret military agreement:

1. The signatory states mutually agree, that in the event that a war of an international nature breaks out in Asia, Japanese troops are to undertake the recovery of North East China American troops are to assist in recovering Central and North China; the recovery of South China is to be the sole responsibility of China's Nationalist armies; South China is to be the for Nationalist China's re-"Vival, a "a ta mare est aproved a transporter appropriate terminal and the second

REFUGEES IN MACAO Sir,—I have been keenly linterested in the outcome of the recent Legislative Council debate on the question of repayment of loans made to refugees in Macao. After reading the Hon. Sir Mankam Lo's very able speech and those of other unofficial members of the Council, in which cogent reasons in favour of Sir Mankum's-motion-were-put-forward both from the point of view of policy and from the individual angle, I was most surprised that the motion should have been withdrawn, more especially in view of the feeble opposition

from the Government spokesman, At the Council meeting there was no real debate on the subject. My conclusion is that the public has not been told everything and, somehow, regardless of the sound arguments submitted by Sir Man-kam and others, an over-riding decision was made. That no adequate reply was forthcoming to the Hon. Mr. Follows convinces me of this. Please, therefore, allow me to remark on Mr. Follows' speech,

The Hon, Financial Secretary indientes that the major reason for demanding refund of the Macgo advances is that this is only in foirness to certain groups of individuals. In this connection family of seven recently he referred to three groups. A groups should not have been men-

those who were repatriated. The Financial Secretary states that it was later decided their passages should be cltarged for. I have friends in this category who have not paid for their passages, nor were the passages paid for by

their employers. One group remains—the local Volunteers-from whose necumuthe money advanced for support of their families in Macao. Their grievance, as expressed to me. is that, despite their loyalty and, on the whole, their exemplary conduct during internment, they were shabbily treated after the war. They were discriminated agathst by Government and, in many cases, by their employers. Kong: Possibly the Government, disturbed by the lack of response to the call for volunteers, is now endeavouring to placate them so as to woo them back to the Hong Kong Volunteer ranks. n fueble and ill-considered nttempt to justify its action in the eyes of the "local" volunteers, the Government is subjecting others of the "local" community to the same shabby, treatment And what will Government nchieve by this? Let us look at the matter realistically. Maybe some amonust the local volun-

Government will fight one inflistice by perpetrating another. (I use the word "inadvisedly. Apart from other considerations, surely it is unjust that the victims should buy when the aggressors, as for

Boy's 100-yard walk under the ice

Oslo, February 27. A five-year-old boy, Borge Telinesset, from Telinesset in Oesterdalen, Southern Norway, fell through the ice on the Glomma River today but walked 100 yards under it and was rescued.

Leif Proen, a small holder in the district, told The Associated Press tonight:

"The little boy was walk-Ing_across-the-Glomms-whensuddenly he fell through and Into the water. The boy, however, started walking on , the bottom of the river and was partly carried by the slow moving purrent. People who came to his resous tried to cut a hole in the ice, but in vain. Chinese labour tor Russia

Lake Success, February 27. The American Federation of Labour (AFL) told the United Nations today that Red Chin will become a vast reservoir of forced labour for Russia.

Miss Toni Sender, AFL representative at a meeting of the U.N. Economic and Social Council, attacked Soviet labour policies for the second straight year and appealed to the Council to rally the conscience of the world against them.

Last year Russia denounced the AFL attack on forced labour as lies and slander. This year there is no Soviet bloc delegate present since the Russians and their satellites walked out of the Council recently in protest against the presence of Nationalist China. Miss Sender said 500,000 Chi-

nese have been promised to work for Russia and asked, "Where will the system halt?" The AFL representative said that reports flowing into her or-

ganisation from abroad show that wherever Communism conquers new lands, a system of forced labour accompanies the conquers. -Associated Press.

According to persistent reports here, the attempt was made two weeks ago when Croce was lying seriously ill in his home at Naples with a stroke from which he later

The Vatican newspaper, "Osservatore Romono," sald today that Father Lombardo, who lived in a Jesuit College near Croce's home, 'had called" on the sick philosopher as a result of suggestions by mutual friends.

Croce said that he was glad to receive the Jesuit priest. The newspaper added that Croce had sald: "I am sorry to waste his time since I have nothing to learn from him." Croce's family, however, re-

fused to admit Father Lombardo, saying that the philospher was too ill. "That is all that happened," added the newspaper. "No more and no less. All the rest is poisonous fantasy."-Reuter.

LONDON: TAKES MORE CHEERFUL VIEW OF SINO-SOVIET PACT

London, February 27. A line by line study of the new Sine-Soviet trepty has convinced official quarters here that Moscow came off second best in its dealings with

the Chinese Communist leader, Mao Tse-tung. Experts who have been comparing the new treaty with the 1945 Sino-Soviet pact said that in many respects the new one represents a Russian climb-down without precedent in recent foreign relations.

One expert said the new treaty differs from its forerunner in some important respects which should dispal any illusions that China must come under the category of a Soviet satellite.

PAKISTAN DESIRES PEACE BUT PREPARED FOR WAR

Karachi, February 27. The Prime Minister, Liaquat Ali Khun, today warned India that Pakistan

is fully prepared for war if India wants to fight. In a prepared statement which he read to a Press conference, Liaquat Ali blamed India for the recent communal rioting, in the East' Pokistan Bengal area and said 221 persons were killed and 276 injured in East Pakiston alone.

Ho charged that the Indian Prime Minister, Jawaharlal Nehru, had misrepresented the situation in a recent report to the Indian Parliament, in which Mr. Nehru blamed East Pakistani Moslems for starting riots.

KASHMIR AGAIN!

The extension of friction between India and Pakistan from the Kashmir issue to the economic field, and now to the communal sphere has deepened the anxieties of al who realise the crucial importance of the Indian subcontinent to stability and prosperity in Asia. The longer the Kashmir wound remains open, the worse the

situation will get. It may even become unmanageable. Once more the Security Council has had to deal with the Kashmir issue. A resolution is before it terminating the Kashmir Commission, and appointing a representative of the United Nations to take over its powers and responsibilities. His task will be to assist in the preparation, and to supervise the implementation, of the programme of demilitarisation and to interpret the agreements reached by the parties for demilitarisation. Some describe his task as that of mediator, and in this respect Admiral Nimitz is regarded as having been ruled out, since he is mentioned in the resolution itself as the plebiscite administrator. The mediator would have the right to place suggestions before the Governments and be-

WAR MEMOIRS:

We had, as is set forth in the previous volume, already given modest aid to Greece from the time when she was attacked by italy, and four British air squadrons were operating with some success from Greek airfloids. It is at this point worth while seeing what was actually in progress on

the German side. On January 7, 1941, Ribbentrop informed the heads of the German mission in Moscow :

Since early in January the movements of strong German troop formations to Rumania has been going-on via Hungary. The movement of troops is being carried on with full concurrence of the Hungarian and Rumanian Governments. For the time being-the troops will be quartered in the South of Rumania. The troop movements result from the fact that the necessity must be seriously contemplated of ejecting the English completely from the

whole of Greece. German troops have been provided in such strength that they can easily cope with any military task in the Danublan region and with any eventualities from any side. The military measures being carried out by us are aimed exclusively against the British forces getting a foothold in Greece, and not against any Balkan coun-

try, including Turkey. As for instructions for conversations, in general a reserved attitude is to be taken. In case of urgent official inquiries it is to be pointed out, that such inquiries are to be made in Berlin. In so far as World War may be recalled.

sures against England,

By the middle of January the Russians were deeply perturbed, and raised the issue in Berlin On January '17 the Russian' Ambassador called at the German Foreign Office, and communicated the substance of the following memorandum :

, According to all reports German troops in great numbers are in Rumania, and are now prepared to march into Bulgaria, having as their goal the occupation of Bulgaria, Greece, and the Straits. There can be no doubt that England will try to forestall the operations of German troops, to occupy the Straits, to start military operations against Bulgaria in alliance with Turkey, and turn Bulgaria into a theatre of operations.

The Soviet Government has stated repeatedly to the German Government that it considers the territory of Bulgaria and of the Straits as the security zone of the USSR, and, that it cannot be indifferent to events which threaten the security interests of the USSR. In view of all this the Soviet Government regards it as its duty to give warning that it will consider the appearance of any foreign armed forces on the territory of Bulgaria and of the Straits as a violation of the security interests of the USSR. On January 21, the Russian Ambassador was called to the depending on circumstances, German Foreign Office and told that the Reich Government had conversation cannot be avoided England contemplated occupying not received any reports that an opinion in general terms is the Straits. Letter to Truman

A few days later I addressed myself to the President of Tur-Inonu, Angora. 31 Jan., 41.

The rapidly growing danger to Turkey and to British interesta leads me, Mr. President to, address you directly. 11 have sure information that the Germans are already establishing themselves upon Bulgarian aerodromes. Hutments are being prepared, and advance servicing personnel numbering several thousands have arrived This has been done with the full connivance of the Royal Bulgarian Air Force and undoutedly of the Bulgarian Government.

Very soon, perhaps in a few weeks, the movement into Bulgarla of German troops and air squadrons will begin. The air squadrons will only have to fly from their stations in Rumania to the bases they are preparing in Bulgaria, and will immediately be able to come into action. Then, unless you promise the Germans not to march against : Bulgaria or against their troops passing through Bulgaria, they, will bomb istanbul and Adrianople the same night, and also divebomb your troops in Thrace.

No doubt they would hope either to reach Salonika unopposed or to compel Greeks to make peace with Italy and yield them air bases in Greece and in the islands, thus endangering the communications between our armles in Egypt and the Turkish Army. They would deny the use of Smyrna to our Navy they would completely control the exits from the Dardanclies, and thus complete the

The Prime Minister, Mr. Clement Attlee, will discourage any reference to further nationalisation in the King's Speech outlining the Government's programme to the new Parliament, it was learned from a usually reliable source today.

With Labour's majority on a knife edge, the Prime Minister and his senior Ministers have decided that the Speech will not mention controversial legislation.

To introduce the business of the new Parliament on a high note of challenge might force an immediate test of strength between Labour and Conservatives before the new left wing administration, with its tiny majority, had got into its stride.

PARIS POINTERS: CHIC ON A SHOESTRING

By Iris Ashley

The French couture is said to lead the world in fashion. But when we say that smart French women have the greatest chic in the world it is not meant to infer that they are always dressed by the

CANADA CAUGHT TRADE 'SQUEEZE'

Ottawa, February 28. Canada is caught in a trade squeeze which is worrying her economists and has already caused unemployment on a near-depression scale in her three great winter seaports of Halifax, St. John and Vancouver. -

Her traditional overseas Markets, including those in Commonwealth countries, are folding up because of currency difficulties.

United States, which has now. become by far her greatest customer as well as her greatest supplier.

But this trend in North-South trading has left the scaports out in the cold and they are having the blenkest winter since hungry thirties.

Hallfax and St. John each have more than 15 per cent of their total working force unemployed. In Vancouver, the figure ds higher, Almost the only conmodity moving through the ports in quantity is wheat, and that can be handled with a small la-

bour force, In addition, many officials here believe that the loss of overseas markets has played a part in aggravating nationwide unomployment, although the connection is not so direct as in the case of the seaports.

So far, she has been able to unemployed in Canada-about 1 is feared here, would be bound which has more than three times | this respect.

But if the economic problems of South Asia are being netively studied, the same cannot really be said about its ideological or spiri-tual problems. What kind of social system does South Asia wish to see prevalling? The younger generation is still very open-minded. Much too little attention is being paid in London to this fact.

By some people in England it is hoped—rather light-heartedly that British socialism provide model for the East in its next stage of social development. Certainly some of the things which have been done in Britain's experiment in socialism have caught the public. The health service, and to a lesser extent the educadional reforms, are widely, discussed. The claims of socialism that it can maintain full employment are also winning world-wide attention.

If the present system in Britain enjoys prestige in the East, it must be realised that it is because of the new institutions and new rdforms of recent years. It is not the old underlying liberalism of the British system which attracts young today. That has a much more limited appeal-and

Business Enterprise given an early start

By Betty Betz

When a distinguished group of big businessmen is willing to drop everything and leave their desks, teletypes, and appointments for one solid day to put on a question-and-asnwer session for a group of teen agers, that particular group of teen-agers must be pretty important.

That's just what I figured when I had my first introduction to Junior Achievement at their annual convention in New York a few years ago.

Here's how Junior Achievement works. A group of high school or college kids will decide to go into the manufacturing business on a small scale, so they find a company to ponsor them.

They chose the product they'd like to manufacture, elect their company officers, and plan their part-time work program. Then they sell stock for 50 cents a share and actually go to work making and selling their product

In the star event of last night's Badminton Championship games at Club de Recreio, the University Champion and former Malayan Doubles Champion, K. S. Low, gained a twoset win over veteran P. H. Wong, former Colony Singles Champion.

The Senior Doubles encounter between Shailanders' Bill Funk and S. K. Howe and R. Young and W. Gillies went in full blast in the first set, but cooled down considerably in the second set, as the Shanghai champions exerted their superiority.

Another Swedish soccer team coming; Warning against rough play

Another Swedish soccer team as good, if not better than the Halsinborg Swedish XI, will be visiting Hong Kong during the first week of December next.

This announcement was made by Mr. Jack Skinner, Chairman of the Hong Kong Football Association, at the monthly Council meeting of the Association held yesterday.

During the course of the meeting, Mr. Skinner appealed to Club representatives and referees, as well as linesmen, In connection with the forth- ground inside the racecourse was coming visit of another Swedish dealt with in a letter from the Wolf Lyberg, who was manager complaint by Mr. W. Gaffney, Of the forwards, Gardner was of the Halsinborg Swedish XI referee.

accepted.

Rough play Dealing with the question of rough play, of which there had been too much of late, Mr. Skinner appealed to all Club representatives to speak to their play-

ers on the subject. Mr. Skinner also appealed to referees to extend operation by making quick and firm decisions and suggested that linesmen also realise their duty and keep up with the play.

Mr. Skinner emphasised that the Association would deal most drastically with players found guilty of rough play. A letter from Radio Hong Kong asking for a contribution of \$2,-500 towards the cost of providing live broadcasts of soccer matches was read to the meeting. These brondcasts, it was stated, were for the benefit of the Forces

generally. Live broadcast

and in the interests of sport

It was indicated that arrangements were being made to provide live broadcasts of soccer matches played on the Club ground at Caroline Hill and Sookunpoo. As the Army authorities had agreed to make a grant of \$500 towards the cost of the proposed Anglo Chinese P.M. v Wanchal broadcasts, the meeting decided that the Association should make! up the balance of \$2.000.
